ISO ClaimPort Proof of Coverage (POC) services provide electronic real-time filings of coverage/policy data to the state regulators accompanied by an electronic acknowledgment (report status) for each POC report.

ISO ClaimPort Transmitter: Allows a Carrier to submit WCPOLS format electronically via the Internet while ISO ClaimPort produces and delivers the format and requirements prescribed by the state. Carrier has the option of receiving the state acknowledgments in an electronic file format via the ISO ClaimPort Transmitter or viewing on-line via the ISO ClaimPort Online Reporter or both.

ISO ClaimPort Online Reporter: Allows a Carrier to input POC data via the Internet while ISO ClaimPort produces and delivers the format and requirements prescribed by the state. Carrier has the option of receiving the state acknowledgments in an electronic file format via the ISO ClaimPort Transmitter or viewing on-line via the ISO ClaimPort Online Reporter or both.

Magnetic Tape Conversion: Allows a Carrier to mail WCPOLS format on magnetic tapes to ISO; ISO ClaimPort produces and delivers the format and requirements prescribed by the state. Carrier has the option of receiving the state acknowledgments in an electronic file format via the ISO ClaimPort Transmitter or viewing on-line via the ISO ClaimPort Online Reporter or both.

Paper: Allows a Carrier who does not yet have Internet access the ability to mail paper {policies/endorsements} to ISO ClaimPort Customer Service Representatives who will interpret into the format required by the state and enter into the Online Reporter on their behalf. Carriers receive acknowledgments via fax. Once a carrier obtains Internet access they will be able to retrieve their data that has been saved for future review or pre-populated re-submissions.

Status August 2002:   Production in KY, RI, MO, TN, FL, NY and UT
Approved in NM, OR, TX
