RE: Reported Scam

It has come to the attention of the Department of Workers' Claims that a scam is being perpetrated by unknown individuals. The scam involves texts and other communications supposedly from one of the Department's administrative law judges directly to workers' compensation claimants. In the communication, the false administrative law judge requests personal and financial data. It is a scam. Please make your clients aware so they do not provide this information. The Department does not solicit information in this manner. If one of your clients receives one of these requests for information, please contact the Attorney General's office or other law enforcement agencies. Thank you.
